

## Heart screening

Heart screening is recommended for young and active people and athletes with more detailed heart attack risk assessments available for the over 40s.

Visit Heart for Life to learn more at:  
[www.heartscreening.co.uk](http://www.heartscreening.co.uk)

## UK treatment

Where possible we will look after you in Jersey but some heart tests and procedures are not performed in Jersey and need to take place in a UK centre. We work very closely with Oxford University Hospitals under the expert care of Professor Adrian Banning and colleagues.

## Legacies and charity

The Jersey Heart Team are dependant on charitable donations and legacies. Please consider supporting local heart services when writing your will.

For more information contact Dr Mitchell or visit:

For more information on heart tests and conditions visit: [www.heartforlife.co.uk](http://www.heartforlife.co.uk).

### Charges

Charges are indicative, and are inclusive of equipment and professional reporting fees. Please be aware that each test may result in separate invoices from the hospital and from Dr Mitchell. Late (within 24 hours) cancellation can result in a cancellation charge.

Payment is expected within 30 days. Interest at 2% above base rate will be charged after 60 days. Late payments will be referred to a collection agency.

### Private insurance

If you have private medical insurance then it is important to check your level of cover from your policy when you call for preauthorisation. Some insurance companies may not cover the full costs of consultations, tests and procedures. You would therefore be responsible for any short-fall.

### Questions

If you have any questions about any aspect of your care then please speak to our receptionist.
